FOUNDATION SPONSOR

BUILDERSCARE NH FOUNDATION

The members of the **New Hampshire Home Builders Association** care about those who have sacrificed for us all. That is why we have established the **Hammers for Veterans Auction** as the first program of our **BuildersCare NH Foundation**.

New Hampshire veterans make up more than 10% of the state's population. The number of veterans with disabilities is also growing.

Over one-third of service members who have returned from Iraq and Afghanistan suffer from some form of mental health disability including post-traumatic stress disorder (PTSD), many have traumatic brain injuries, and others return with significant physical disabilities.

The goal of **Hammers for Veterans** is to raise funds for providing professional home construction related services to New Hampshire veterans and their families. The program was created after research into the needs of returning, as well as currently deployed, armed service personnel revealed that many are in need of renovations to their existing residences.

Veterans or their families who have interest in applying for program assistance should contact Andrea Chrisstoffels, Housing Services Manager, Easter Seals NH Military & Veteran Services, at 603-851-3680 or achrisstoffels@eastersealsnh.org.

BUILDERSCARE NH FOUNDATION

The **New Hampshire Home Builders Association** has organized the **BuildersCare NH Foundation¹** that is dedicated to and operated exclusively for charitable, educational, and scientific purposes which are tax-exempt within the meaning of Section 501(c) (3) of the Internal Revenue Code, as amended from time to time, or corresponding provisions of any subsequent Federal Tax Laws.

The **BuildersCare NH Foundation** is governed by an annually elected board of directors which will establish operating and policy committees as it deems necessary.

The **Hammers for Veterans** advisory committee includes individuals experienced in veteran's affairs that assist in establishing outreach activities, eligibility criteria and coordination with existing benefits and services.
